EPR ACADEMY
EXTENDED PRODUCER RESPONSIBILITY

NOW AVAILABLE!

Packaging EPR for Compliance Managers

This flexible, self-driven course introduces participants to everything they need to know about Extended Producer Responsibility to start guiding their organization through new packaging laws. This course is especially helpful for Directors of Sustainability, regulatory directors, and any professionals responsible for compliance for companies manufacturing consumer-packaged goods for distribution nationally or to states with EPR regulations.

Course Content

EPR 101
- What EPR is, and how it drives change
- An introduction to producer requirements

How EPR impacts you
- An overview of reporting timelines
- A directory of state-by-state requirements

Identifying Business Needs
- Basics of fee setting
- Data prep and reporting

Managing Packaging Optimization
- Analyzing costs and benefits
- Integrating PCR (post-consumer recycled materials)

Guiding Your Organization
- How to register with a PRO (producer responsibility organization)
- How to create a customized compliance roadmap

Connecting With Support
- Get permanent access to the EPR Academy resource library
- Schedule a free 20-minute consult to explore unique needs

Tuition
Enroll for $995 to get access to the self-paced online course, downloadable materials and the full EPR Academy resource library.
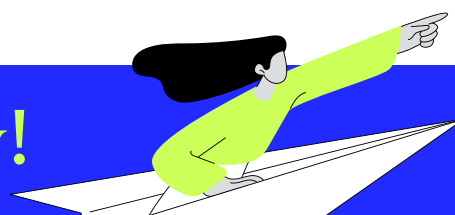

Time Investment
Participants generally complete all course modules in about four hours, at their convenience.

Certification
After completing all modules, participants can choose to take an exam, which results in receiving a downloadable Certificate of Completion.
